Case Studies

Attainment

Stuart was disengaged at school, and for a time, with us. He had dropped down to just one day per week, and struggled to sit in the main classroom for lessons. Rachelle (our Learning Support Worker) instead worked one to one with him, in the hope of getting him to a place where he can sit his Functional Skills exams. Stuart managed to achieve L1 in both Numeracy and Literacy functional skills.

Attendance

Dylan was very disengaged at school, and started with us having a school attendance of only 56%, and this was dropping as he was not engaging at school at all. Preferring the smaller groups and one to one support, over the course of the year, Dylan's attendance rose to 100%.

Progression

Jakub had been excluded from his school late in year 11, and did not have enough time to be placed at a new school and achieve qualifications. He arrived with us on a short term, 6 week programme, 5 days per week. Staff supported Jakub, who worked extremely hard, managing to complete a L1 Btec Award in both Sport and Applied Science, alongside passing his Functional Skills Literacy and Numeracy at Level 1. Jakub, with the help of the qualifications he has achieved with us, has managed to secure an apprenticeship.

Retention

Logan had been involved in various issues and incidents off-site, which had started to spill out on-site. It became apparent that it was no longer safe for him to be on-site. Logan switched to online learning, and has managed to finish the year with a L1 Btec Award in both Sport and Applied Science.
